Who needs to register their vehicle over 8,000 pounds at the county office?

Idaho Code 49-434

The County Assessor Division of Motor Vehicles (DMV) offices register Idaho based commercial vehicles of 26,000 lbs or less gross weight that operate intrastate within Idaho and Idaho based farm vehicles of 60,000 lbs or less gross weight.

A farm vehicle is defined as follows:

A vehicle or combination of vehicles owned by a farmer or rancher that is operated over public highways and used exclusively to transport unprocessed agricultural, dairy, or livestock products raised, owned, and grown by the owner of the vehicle to market or place of storage; and includes the transportation by the farmer or rancher of equipment, supplies, or products purchased by that farmer or rancher for his own use (Idaho Code 49-123).

Idaho Code 49-434 list the cost of registration over 8,000 pounds for noncommercial and farm vehicles.

What is the Federal Act Moving Ahead for Progress in the 21st Century (MAP 21)?

MAP 21, the Moving Ahead for Progress in the 21st Century, is an Act that was signed into Federal law in 2012.

Some of these revisions apply to any motor carrier transporting agricultural commodities and farm supplies to and from farms within limited distances. Other provisions also may apply to farmers (and their family, employees, etc.) operating “covered farm vehicles” while transporting agricultural commodities, livestock, machinery or supplies to or from a farm or ranch. There are several important limitations on eligibility and use of this exemption for the operation of a “covered farm vehicle.”

Federal Motor Carrier Safety Regulation 390.5T defines a covered farm vehicle —

(1) Means a straight truck or articulated vehicle—

(ii) Operated by the owner or operator of a farm or ranch, or an employee or family member of an owner or operator of a farm or ranch;

(iii) Used to transport agricultural commodities, livestock, machinery or supplies to or from a farm or ranch; and

(iv) Not used in for-hire motor carrier operations; however, for-hire motor carrier operations do not include the operation of a vehicle meeting the requirements of paragraphs (1)(i) through (iii) of this definition by a tenant pursuant to a crop share farm lease agreement to transport the landlord’s portion of the crops under that agreement.

(2) Meeting the requirements of paragraphs (1)(i) through (iv) of this definition:

(i) With a gross vehicle weight rating or gross combination weight rating, or gross vehicle weight or gross combination weight, whichever is greater, of 26,001 pounds or less may utilize the exemptions in § 390.39 anywhere in the United States; or

(ii) With a gross vehicle weight rating or gross combination weight rating, or gross vehicle weight or gross combination weight, whichever is greater, of more than 26,001 pounds may utilize the exemptions in § 390.39 anywhere in the State of registration or across State lines within 150 air miles of the farm or ranch with respect to which the vehicle is being operated.
